**Schedule of Construction of Project :**

| S. No. | Stage of Construction                   | Expected Completion Dates for |                |
|--------|-----------------------------------------|-------------------------------|----------------|
|        |                                         | Phase - 1                     | Phase - 2      |
| 1.     | Completion of Structure of the Building | January, 2028                 | July, 2028     |
| 2.     | Completion of development works         | June, 2029                    | December, 2029 |
| 3.     | Obtaining Completion Certificate        | October, 2029                 | April, 2030    |
| 4.     | Grace Period of Six Months              | March, 2030                   | October, 2030  |
| 5.     | Finishing and Handover                  | March, 2030                   | October, 2030  |

**Note:**

Handing over of every project undergoes a set of standard process. It includes checking of unit, clearance of payment, preparation of registration documents, registration and possession of unit. This process normally takes 70 days time for all units to get handed over after the receipt of completion certificate.

**AREA DETAILS**

'CARPET AREA as per RERA' means the net usable floor area of an apartment, excluding the area covered by the external Walls, areas under Service shafts, exclusive balcony or Verandah area and exclusive open terrace area, but includes the area covered by the internal partition walls of the apartment.

SUPER AREA' has no commercial bearing. However, before applicability of Real Estate Regulation Act, immovable properties were generally sold on Super area basis. It is now very difficult for the Allottees to compare between the unit sold on Super Area and the units being sold on Carpet Area basis. Therefore, for the purpose of making it comparable with the properties sold prior to applicability of Real Estate Regulation Act, Super Area of the Unit is being provided. Consideration of the Unit is dependent on Carpet Area and exclusive balcony or verandah.

## PAYMENT RELATED INFORMATION

- All cheques / drafts to be made in favour of  
**M/S. ASHIANA HOUSING LIMITED ASHIANA OMA PHASE 1 & 1a COLLECTION ACCOUNT**  
for Online Payment : A/c No: **777705223374**  
  
and  
**M/S. ASHIANA HOUSING LIMITED ASHIANA OMA PHASE 2 COLLECTION ACCOUNT**  
for Online Payment : A/c No: **777705223393**  
  
Bank: **ICICI BANK LTD**, Bapu Nagar, Jaipur, IFSC : **ICIC0006747**.
- Deduction of Tax @ 1% on the total price of the unit of Rs.50 Lac or above would be required. The amount is to be deducted on every payment & the submission of TDS Certificate to builder would be the responsibility of the allottee.
- Interest Free Maintenance Security and Upfront Maintenance of 12 months ( Approx )would be payable within 30 days from the date of offer of possession in favour of '**Ashiana Maintenance Services LLP**.'
- Each buyer shall proportionately contribute towards creation of water infrastructure up to the project. This would be on actual cost basis and currently estimated as Rs. 25/- per sq.ft. on Super Area. The contribution per unit shall be contributed at the time of possession or incurred whichever is earlier. Additional contribution per unit may be collected/refunded as per actual cost incurred. There are no given timelines from PHED for water infrastructure, and information will be shared as available.
- GST is over and above on the total cost GST is subject to change without notice as per Govt norms.
- Pursuant to government Notification No. 3/2019 - Central Tax (Rate) dated 29th March, 2019, the effective GST rates for residential property in a Residential Real Estate Project are as under:
- Any security deposit made to the Government Authority (Electricity, Gas etc.) on behalf of the Allottee to be reimbursed to the Promoter.
- Above mentioned prices are subject to change without any prior notice.

## MISCELLANEOUS

All units have been provided with access to the club house, swimming pool, electricity, connection to sewerage treatment plant and gas pipeline.

The Allottee(s) understands that the Project comprises of open and covered parking spaces, spread across the whole project. For day-to-day comfort of all residents, the Promoter has randomly earmarked parking space for the exclusive use of each unit. Those Allottee(s) who have not availed the option of covered parking will be earmarked open parking. Further, the Allottee(s) understand and agree that every Allottee(s) will be entitled to a minimum of one duly earmarked parking space, and some units may be earmarked with more than one parking space.

All building plans, layouts, Specifications etc. are tentative and subject to variation and/or modification as decided by the Promoter or the competent authority sanctioning such plans.

Estimated as on 18th July 2026

| Security Services                                                              | Security personnel numbers will be as per budget, placement of these personnel will be as per project specific requirements. Concierge services will be available only during daytime hours. Weekly offs need to be provided to them.                                                                                                                                                                                                                |
| Upkeep of horticulture                                                         | Maintain gardens, lawns, and green spaces by regular cleaning, watering, pruning, and seasonal planting to keep the society environment attractive and healthy.                                                                                                                                                                                                                                                                                      |
| Sweeping/ refuse disposal                                                      | Sweeping and refuse disposal encompass regular cleaning, prompt waste removal, maintenance of hygiene, and coordination with waste collection services to ensure a clean and healthy environment within the society. Residents are required to segregate and provide dry and wet waste separately at the point of collection.                                                                                                                        |
| Essential Services Operation of STP, generator, Fire system & water management | Management of STP, generator, fire safety systems, and water supply to ensure safe, reliable, and uninterrupted services for residents.                                                                                                                                                                                                                                                                                                              |
| Repair & maintenance of common areas                                           | Repair and maintenance of common area electro-mechanical systems involve the routine inspection, servicing, troubleshooting, and fixing of electrical and mechanical equipment in common areas. This work is carried out by electricians, plumbers, lifeguards, STP operators and support staff to ensure all systems operate safely, efficiently, and without interruption.                                                                         |
| Administration cost                                                            | These costs ensure effective governance, transparency, and smooth management of the society's operations beyond the physical maintenance of common areas.                                                                                                                                                                                                                                                                                            |
| Club House                                                                     | Badminton court, Gymnasium, Swimming pool, Children's play area, Multipurpose halls for private gatherings (available on a chargeable basis)                                                                                                                                                                                                                                                                                                         |
| Power Supply Charges                                                           | Power required for common lighting, running of pumps, lifts, sewerage Treatment plant etc. and running of generator (diesel and mobil) shared proportionately.                                                                                                                                                                                                                                                                                       |
| Repair & repainting charges                                                    | Repair and repainting charges refer to the expenses incurred for the maintenance, restoration, and aesthetic upkeep of a building or common areas of the society. This charge are typically levied separately from regular maintenance charges and may require additional contributions from society members when the costs exceed the available amounts. This ensures the longevity and proper upkeep of the building's structure and common areas. |

| Type                                 | Super Area | Monthly Maintenance Charges |
|--------------------------------------|------------|-----------------------------|
| Iris (4 BHK + 4T)                    | 2700 sq ft | Rs. 13203 +18% GST          |
