

## **ENVIRONMENTAL POLICY**

Ashiana Housing Ltd. (AHL) is an Indian Real Estate Development company head office on New Delhi with branches at different cities in India. AHL is a mid-income housing developer with primary focus on General Housing and Senior Living for the elderly. Main products/Services of Ashiana include Residential Complexes, Maintenance Services and Property Services.

The Environmental policy confirms AHL's commitment to comply with all Environmental legislative requirements and to ensure continual improvement through the implementation of responsible Environment management processes and preventative measures in order to control, minimize or eliminate environmental risks and impacts across all existing and future real estate projects.

**This will be demonstrated by:**

- Creating awareness among its personnel on the impact of their action on the Environment and encouraging sound Environment management practices in their day to day activities.
- Identifying and complying with relevant environmental legislation, including limits to productions shall from the basis of all subsequent actions on Environmental Management;
- According the highest importance to continual improvement and prevention of pollution by instituting practices and procedure, which would reduce wastages and conserve energy and natural resources. This will be achieved by instituting a framework of objective that will be incorporated into the company's planning activities.

This policy shall provide meaningful direction to the actions of the entire AHL team and invoke awareness in all concerned.
